

OUR SWACHHANJALI

India@75 Foundation has been working towards mainstreaming volunteering in India for more than a decade. Recently, it contributed to the 'Garbage Free India' drive by organising the **Shramdaan for Swachhata** event in Ghaziabad. The Shramdaan event encouraged communities to voluntarily clean public spaces and contribute to the vision of Clean India.

As part of this event, India@75 Foundation organised a cleanliness drive in partnership with Nirbhed Foundation. Volunteers were oriented to the larger purpose of the drive and also made aware of the India@75 vision. They were provided with masks and gloves; around 60 volunteers participated in the drive to clean the road adjacent to a big drain in Shakti Khand, Ghaziabad, Uttar Pradesh.

The **Shramdaan for Swachhata** event concluded with a session on "Health & Hygiene" for children aged 6–15 years. The session covered concepts like hand washing, oral hygiene, healthy eating habits, clean surroundings, good manners, health and well-being.
